Professional Experience

Front-end Engineer

Gamebloc, Remote, Nigeria | Oct 2024 – Nov 2025

- Implemented website optimization techniques that enhanced overall load speed by 50%, significantly improving site performance and stability.
- Developed a modern, responsive web application leveraging React and TypeScript to ensure seamless user experience across devices.
- Optimized backend services, achieving a 40% reduction in API response times.

Software Developer Intern

Huawei Technologies, Lagos, Nigeria | Nov 2023 - Feb 2024

- Contributed to the development of ongoing software projects, enhancing functionality and delivering high-quality results.
- Developed and integrated a new API/service, subsequently incorporated into the company's technical documentation for streamlined accessibility and reference.
- Bug identification and resolution through rigorous quality assurance protocols and comprehensive testing processes to validate compliance with defined software quality standards.

Education

B.Tech. Information Systems
Federal University of Technology, Akure | Graduated: 2024
Second Class Upper Division (2:1)

Awards

BNB Hack 2024 Q4: The Ultimate Battle of Hacker Heroes

Centrium selected as 1 of 24 projects out of over 200 total entries

Notable Projects

• **Web3 Blog App - Centrium (Ongoing):** Integrated a full-stack blog application for crypto related articles and posts on Binance Smart Chain using TypeScript and Web3js.

• **Business Management System:** A comprehensive business management platform designed for a bread manufacturing business. Its primary goal is to digitize and streamline the tracking of production, sales, customer debts, and operational expenses to enable data-driven decision-making.

• **Fraud Detection ML model:** Developed a Machine Learning model for detecting false insurance claims.

• **YC Directory:** A startup directory platform where users can discover, share, and pitch startup ideas, featuring user profiles and a content management system.

• **FPL Pulse:** Fantasy Premier League (FPL) mini-league tracker. Displays gameweek standings with net points (total points minus transfer costs) for a private league.

•**Health Businesses Lead Generation:** Built an n8n automation pipeline that scrapes and analyzes private healthcare businesses for website improvement opportunities. Scheduled to run daily, automatically compiling qualified leads into a structured Excel report.
